

- Feb. ● **Ruth Carper** (Psychology)
6 *Typical & atypical brain development across the lifespan:
Anatomical MRI & diffusion imaging*
- Feb. ● **Inna Fishman** (Psychology)
20 *Social cognition and developmental disorders: Event-related
potentials and functional (connectivity) MRI*
- Feb. ● **Sarah Mattson** (Psychology)
27 *Alcohol and the developing brain: Neuropsychological studies of
fetal alcohol spectrum disorders*
- Mar. ● **Daniel Goble** (Exercise & Nutritional Sciences)
6 *Effects of concussion on motor control and balance*
- Mar. ● **Marty Sereno** (Psychology)
13 *Vision, retinotopy, and maps in the brain:
fMRI and multimodal imaging*
- Mar. ● **Karen Emmorey** (Speech, Language, and Hearing Sciences)
20 *Language without hearing – What sign languages reveal about
human language and the brain*
- Apr. ● **Stéphanie Riès** (Speech, Language, and Hearing Sciences)
3 *Neuronal bases of language production: Intracranial recording
and stimulation in neurosurgical patients*
- Apr. ● **Philip Holcomb** (Psychology)
10 *Reading and developmental dyslexia: ERP*
- Apr. ● **Ksenija Marinkovic** (Psychology)
17 *When the executive gets drunk: MEG, alcohol,
and cognitive control*
- Apr. ● **Nader Amir** (Psychology)
24 *Treatment approaches in anxiety disorders: Neurofeedback
training & transcranial magnetic stimulation*
- May ● **Kee Moon** (Mechanical Engineering)
1 *Brain-computer interfaces for communication and control*

.....
All talks **Mondays, 2pm, 6363 Alvarado Ct., Suite 250**
